THE MATRIX OF LETTERSHIP

SEND LETTERS TO
TRANSFORMERS@SKYBOUND.COM

Welcome back to the Matrix of Leadership, with your co-host editor Ben Abernathy! Joining me, as always, is the connoisseur of cool, Daniel Warren Johnson!

It's me, the COC! I hope everyone's well today. I'm personally feeling quite good. I just finished an amazing breakfast at my favorite cafe here in Chicago: Loaf Lounge! It's the little things that make life awesome, like well made sausage, egg and cheese sandwiches, a well brewed cup of coffee, and Transformers doing suplexes. AND I had an amazing workout yesterday afternoon. Chest presses forever! Also, I just want to shout out the amazing team of Jason Howard and Mike Spicer in this issue. I'm so, so happy with how this first part of Starscream's tale has been presented, and in my opinion it is PERFECT in tone and execution. We have big plans in store for this cast, and Jason and Mike are helping us build that foundation with these two issues! I can't wait for you to read 14!!! Anyway, that's enough from me, let's get to it!

Dear Skybound team,
Two of us here! Annika, a longtime fan of Transformers after reading the IDW comics in middle school, and Cas, who Annika introduced to Transformers more recently but who has been a comics fan for a long time. We'd like to share how much we've been enjoying this series! It's always fun to have a story that we can look forward to with this much enthusiasm, on the edge of our seats waiting to see what's going to come next. It's been really great seeing some of our favorite characters (Soundwave and Jazz especially!) getting some focus throughout the series so far. Give the poor mech his cat back!! We really hope Ravage ends up being okay…

Nice to meet you both! And I truly love Jazz. I hope I get to do a Jazz one-shot some day…

Speaking of characters who are not okay, poor Ratchet! He's another favorite character, and we loved seeing his portrayal here. It hurt to see him go, and it meant a lot to see Optimus and Wheeljack grieving over their old friend. We really appreciate the way you've managed to convey the relationships between the bots, especially in the limited page space of a comic. So much has happened in less than a year, it's astonishing!

Thank you so much for saying that! I'm struggling with the lack of room in a 20 page comic to really convey loss, and give every bot their due, so your comment means a lot. I'm doing my best, though, and Jorge is helping me in a big way, so thank you as well, Jorge!

Anyways, we want to thank you so much for everything you've done so far and keep up the good work! We can't wait to see what comes next, (will it be our beloved tactician Prowl? Will it be Megatron, finally showing up after his escape from Cobra Commander? Can't wait!)
Cheers from the Bay Area!

Cas and Annika

Oh man. Just you BOTH wait! And thank you so much for reading!

Hello Transformers Team!
I recently finished issue #11 and all I can say is WOW! Just WOW!
My original theory was that Ultra Magnus was going to take over as leader in a duel, similar to the Soundwave and Starscream battle and try to defeat the Decepticons with the destruction of Earth, but what actually happened was WAY better. Even though I am not a hardcore Ultra Magnus fan I totally understand where he is coming from. How many years was he held captive and tortured by Shockwave? Speaking of shock, Skywarp with the awesome assist! Hopefully someone can get Thundercracker into the Autobot's base to talk with Teletran One/Skywarp and then maybe Thundercracker can get his fellow Seekers to help the Autobots get the upper hand while getting Skywarp,

his Seeker sibling free from his computer prison. The cover to issue #12 is EPIC and I cannot wait to see what you have planned for the end of this arc.

The primary reason for my letter is to ask, when Duke appeared in Transformers #2 which I added the Duke comic to my pull list at my shop, bought it, read it and loved it! In the Duke comic after his debrief and dismissal there is a “Six Months Later” time jump, but I feel like in the ongoing Transformers comic time is flowing normally with no skips or jumps. How did anyone not see a new giant planet appear in the sky and explain a large part of the ocean disappearing? Not to mention whatever horrible catastrophe that will happen in the next few issues? Unless, this will be explained in a future issue of Transformers, Destro, Scarlett or the upcoming G.I. Joe comic and if not please address or correct me on this concern. Keep up the GREAT work with ALL your books in this Energon Universe (I am also getting and LOVING Void Rivals) these books make me SO happy when they appear in my pull book at my local shop. Speaking of my local comic shop I was able to get the Jonboy Meyers direct market variant of Transformers Volume #1 for my re-reading enjoyment, but I noticed there were no chapter breaks or comic book covers between issues. Is that just for the variant or is it for all volumes, because I loved those in my Invincible and Radiant Black volumes that I re-read and I hope they are there for others to experience the same feeling the monthly readers get.

Thank you,

Travis Johnson

Thank you for reading, writing and supporting the entirety of the Energon Universe, Travis! To answer your first question--the arrival of Cybertron did NOT go unnoticed… details on that in future E.U. titles. And to your second question, all the E.U. collected editions run the story without chapter breaks for an unfiltered reading experience!

Thanks so much Travis! I personally would like the covers included in the trades, am I allowed to say that?!! And thanks for saying that about Magnus! I know what people *relatively* expect when it comes to a new big bot coming into the fray, so I really wanted to do something different. Magnus has always been a little bit out there, so I wanted to lean into that and throw us ALL a curveball when it comes to his story. More to come!

Dear Matrix of Lettership

My name is Lucas, I’m a 20-year-old young man from Guelph, Ontario Canada. I’m an athlete who plays Football and Track and Field. However, I’ve loved Transformers my whole life.

I just finished reading issue #11 and dang it was one of the best issues thus far. First time I’ve had a chance to read a comic as it comes out. I one day hope to collect every Transformers comic story from past publishers like IDW, and I’ve even gotten some vintage Marvel Comics already, but this is at least a start until I’m rich enough to splurge on older comics. Collecting Transformers figures from Legacy and Live Action Movie based Studio Series is an expensive enough hobby as it is.

AMEN! I’ve got like four pre-orders in the queue right now and it is NOT cheap! Ha!

Now I would like to ask a few things:

Question #1: G1 is all right, but I grew up with Transformers Prime, the live action movies, and various other forms of media at the time, while watching older series where I could find them such as the Unicron Trilogy. Might we see more inspiration taken from those iterations of Transformers in the near future? Or at the very least get some original designs for the G1 characters in the comic, similar to IDW?

I wish I could answer you fully, my friend, but I really don’t want to give anything away. I would say however that we’re staying pretty far away from other iterations of TF and keeping it pretty G1. That could definitely change in the future, but as for now we’re starting here and we

will grow organically. Stay tuned!

#2: Was it just me who recognized Cliffjumper being paired alongside Jazz and ended up thinking of when their counterparts in the Fall of Cybertron video game were paired up for a couple chapters, which just so happened to involve Shockwave? At the same time, it makes me think of when Transformers Prime depicted Cliffjumper as a prisoner of Shockwave in flashbacks, this time alongside Arcee.

I've never played that game, but it looks like the writers of that and I have some great minds, thinking alike!

#3: When will Canada get to show up in the comic?

Great question! Maybe I can throw Vancouver into arc 4???

Thanks, sincerely--

Lucas

Thank you Lucas, good luck with your collecting and football and track! Go get it!

Hey TF Team!

I haven't written in to a letters page in a very long while, but I've been compelled to do so by this past year of fantastic books. I've been championing this book from the moment I got an early review copy, telling people "give it a chance, it's gonna be great when you read it!" And I've never been happier to see people go from cautious to full blown supporters. Everything in this new universe is what I've always wanted out of a Transformers story, and the reverence for the mecha genre as a whole, globally, is very much felt. I eagerly await the day where Hot Rod shows up in the main book from over in Void Rivals. I wanna see my boy!

I love Hot Rod too! I especially love Rodimus Prime's ridiculous sports car trailer mode! So cool!

Sincerely, this has been the main book I've been looking forward to each month, and I've never been more honored to be one of the people able to get his hands on it early for reviews. It's very clear to me that everybody who works on this book is a massive fan and isn't afraid to be reverent but also push the envelope and try new things, instead of just falling back on the expected formula for Transformers books. And hey, while I have you... I sure do feel a loooot of early Marvel TF influence in you guys' work. Love that series, so...am I off base there?

It was one of the first series I ever read as a kid, so yes, I'm SURE it's going in there, however subliminally it might be! Still one of my faves as well :)

What a wonderful book you guys have made, and I hope it goes on for years and years and years and...

(Oh, P.S. DWJ, when is Optimus gonna do the Kinniku Buster? C'mooon! I know you wanna see it too!)

'Til the day that all are one!

-Crooker

I don't know about the Kinniku Buster, but…maybe a one winged angel???

Thanks for reading and writing in, gang. Tune in next month to the stunning conclusion to our Starscream story and as an added Energon Universe treat--enjoy the preview to our new G.I. JOE series debuting November 13th!

--Ben

Much love to every single one of you. --DWJ

Also, a final note--on page 19 of this story, we showed the epic moment of Megatron converting into his alt-mode for Starscream and he used what we call "Mass Conversion." Transformers like Megatron are genetically endowed with the ability to convert not simply their bodies, but their entire molecular structure. This ability, not under their conscious control, only activates when they shift into their alt-mode, rearranging their atoms according to a predetermined schematic.
